FUTURA ADVANCED CONTINUITY TESTER. [FACT - 512]

Function:

FACT-512 tests continuity from 64 points to 512 points. Basic Unit is of 64 points, up to 256 points i.e. with 4 cards unit. Attached label printer, prints labels only on passing a harness. Online labels are a part of pokayoke and improve traceability. Bar code scanner attachment confirms correct harness is selected and tested. A window based software, FACT editor helps in easy loading of harness programs and label data.

Features:

- USB port reads and writes USB pen drive.
 - User authentication ensures access to tester's functions.
 - Harness Data and label data transfer to and from tester.
 - Test log for each test stored in a text file.
- Four line LCD alphanumeric display helps easy user interface.
- Keys with tactile feedback and long lasting.
- Pass counters for each program.
- Compact in size and light in weight.
- Easy diagnosis using self tests.
- Diode testing, any combination.
- POKAYOKE mode facilitates 'locking' and 'fail bin' sensing.
- Test settings such as fail bin sensing, buzzer on all faults, buzzer on short and interchange, first fail.
- For critical harnesses, like 'airbag', relay output for operating cutter module.
- Factory settings.

Advantages:

- State of the art, reliable technology.
- All Data i.e Harness points, Label, Diode, barcode, Cable number in one file.
- Easy and quick installation.
- Relay output on passing a harness to drive marker or pneumatics.
- Comes with Futura's Support.

Benefits:

- High speed operation, fast and reliable testing.
- Durable and reliable tester.
- Adaptable to any board for Futura testers.

Harness Testing Was Never So Easy!!!
